

# Why should I vote for Jason LaSage?

Republican voters have to choose between four conservative candidates that all want to lower taxes, reign in government spending, and build a strong business climate in our state through incentives, less taxation, and less regulation. Though, what makes me stand out among the Republican candidates is experience and a track record that proves I am deserving of trust.

I have the most experience in government, through serving as vice-president and 6 years on the Germantown School Board, where I helped oversee a 36 million dollar budget and from working for state Senator Alberta Darling's office.

I have experience in business through working my entire life in Menomonee Falls, first at Guaranty Bank, then at Strong Investments as a licensed securities representative. I also own a self-made real estate portfolio which has taught me how to budget, prioritize, and perform cost benefit analysis, similar to when I work with individual clients to help them purchase a home or make an investment decision and akin to what needs to happen in state government.

I have experience in education, from not only the school board, but through tutoring area kids and part-time substitute teaching for the past 6 years at Thomas Jefferson, North Jr. High, and Menomonee Falls High School. Nearly half of the state budget deals with education; from day one I will have a hands-on, working knowledge of many of our expenditures.

I also have community experience, from being a life-long 24<sup>th</sup> district resident, growing up in Germantown and currently living as a Menomonee Falls homeowner. I have actively served on many community boards including: Youth Futures, Deutschstadt Heritage Foundation, Leadership Germantown, and the Washington County Republican Party Board. I have also been involved in numerous volunteer projects in Menomonee Falls and Germantown.

These experiences, along with my family upbringing, have shaped who I am. Voters can trust that I understand their hard-working, low tax and spending values. I am endorsed by Pro-Life Wisconsin and Wisconsin Right To Life. They can trust that I understand that the community wants a representative who respects life and believes that those who do us harm should be locked up rather than given liberal "understanding."

Madison is in need of great change if we are to get out of being ranked 46<sup>th</sup> among the states in job creation. Since I am the only candidate that has fundamentally changed a governmental body, through taking 6-1 votes where I was in the lonely minority, voters can trust that I am the right person to represent them in the state assembly. I educated the community on what was happening in their schools and we packed gymnasiums with people demanding change. Together we succeeded. Voters deserve someone who will stand up to special interest groups, political pressure, intimidation, money, and promises of power. I have done this at the local level and I am ready to tackle a new challenge.
